Electrical Utility		

NOTE: Homeowners are only permitted by law to perform electrical work in the one-family dwelling that they occupy (or will occupy upon completion of construction). Homeowners are not allowed to perform electrical work in two-family dwellings, multifamily dwellings, non-dwellings or in any other type of occupancy.

By signing this document, I certify that I am the OWNER as defined by MN Statute 326.01 and will legally perform the electrical work at this property.

TOTAL INSPECTION FEE from REI fee worksheet, or \$40 multiplied by the number of required inspection trips, whichever is greater.	Enter Inspection Fee Here >>	*
A surcharge of \$1 is imposed on every permit effective 7/1/15 as per M.S. § 326B.148, in addition to the inspection fee.	Surcharge Fee >>	\$ 1.00
* Grand Total (Inspection Fee plus Surcharge Fee)		*

Requests for Electrical Inspection (REI) with a fee of \$250 or less expire 12 months from the filing date. The installer must have the work completed within the 12 month period or submit another REI that includes the inspection fee for the uncompleted work. Inspection fees do not carry over from an expired REI to a new REI. A service charge of \$35 will be added for all dishonored checks.

**Please submit REI forms together with the applicable fees to the City of South St Paul
 125 3rd Avenue North, South St. Paul, MN 55075**

TOTAL INSPECTION FEE is the fee calculated above, or \$40 multiplied by the number of required inspection trips, whichever is greater. Enter Inspection Fee Here & on REI >>			

Homeowner Affidavit

--- PLEASE READ COMPLETELY BEFORE SIGNING ---

Before the commencement of any new electrical wiring installation required by the Department of Labor and Industry to be inspected, the person responsible for making such installation shall submit to the department a Request for Electrical Inspection and the appropriate inspection fee.

Minnesota Statutes, section 326.01, subdivision 6e defines an "Owner" as "a natural person who physically performs electrical work on premises the person owns and currently occupies as a residence or owns and will occupy as a residence upon completion of construction."

An "owner" is exempt from electrical contracting license requirements and exemption only applies to electrical work performed by the owner on single family residence and associated structures. Both primary and secondary residences, such as lake homes are included, however the exemption does not apply to condominiums, rental properties or wiring not used for residential purposes. It is illegal for an owner to install electrical wiring on any property that is rented, leased or occupied by others.

I, the undersigned, certify that I own the residential property for which this application is being submitted. By signing this affidavit I certify that I qualify as defined by MN Statute §326.01, Subd. 6e to perform this work and will personally and physically perform the work indicated on the application form.

I further certify that no other person will be contracted for or will be paid to perform this work, including the layout of such work. I understand that any person other than myself performing electrical work on this residence is required to be a licensed, bonded and insured electrical contractor in the State of Minnesota and must submit a separate Request for Electrical Inspection for any work they perform.

I acknowledge that as the requesting homeowner I am personally responsible for any violation of the state electrical codes or other applicable laws or ordinances resulting from work performed on this property.

(Signature of Property Owner)
