

PROJECT NEWS

McNamara Contracting has begun work on the installation of a sidewalk on the south side of Wentworth from 15th Avenue to the round-about. During the construction this summer, Wentworth Avenue will be open at all times in both directions but temporary shoulder closures and shifting of traffic can be expected.

Construction crews will continue removing curb and driveways for sidewalk construction and excavating for the sidewalk early this week. Included with sidewalk excavation and grading will be the clearing and grubbing of trees within the limits of construction.

Later in the week, some concrete driveways, concrete curb and gutter and street patching will be installed along Wentworth Avenue. Driveways will be closed after pouring and require seven days to cure. The curing time is necessary for the concrete to reach allowable strengths for vehicle traffic. Parking along side streets will be allowed during driveway closures and should be used.

Please let the on-site inspector, Rollyn Peterson (952-270-0174), know if you have any questions regarding driveway closures or require special access to your home during the closure.

In the first newsletter, we published the phone number of the project construction inspector, Rollyn Peterson. There was a typo in the number – the correct number to call Rollyn is at 952-270-0174 to answer any questions you may have regarding construction.

SAFETY FIRST

With construction getting ready to begin, we want to remind you to use caution around the work site during the construction. Large and small construction equipment may be working in the area during the sidewalk installation and it can be a powerful draw to curious children (and onlookers of all ages). Your assistance in reminding children to stay clear of construction equipment is helpful in maintaining a safe environment. Your patience and cooperation during this construction is appreciated.

PROJECT CONTACTS & INFORMATION

- For construction related questions or concerns, during the hours the Contractor is working, please call the project representatives:
 - Rollyn Peterson (Project Construction Inspector) at (952) 270-0174
 - Lee Elfering, City Engineer, at (651) 554-3210 (Monday-Friday, 8 – 4:30)
 - After hours or on weekends you can leave a message to receive a follow-up call on the next business day at (651) 554-3210
 - Emergency after work hours, call 911
- For general project related questions, call (651) 554-3210 (Monday – Friday, 8 – 4:30)
- The City’s website has information regarding the project. Southstpaul.org – Engineering Department – Street & Construction Projects – Wentworth Avenue Sidewalk. Future Newsletters will be available on the website.
